

We are pleased to invite the academic and business community to participate in the CNN TECH 2021 conference, to be held between the 29.06. and 02.07.2021, at Zlatibor, Serbia.

CNN TECH is a technical and scientific event, whose purpose is to present and discuss knowledge, new perspectives, experiences and innovations.

Accepted abstracts will be published in the conference proceedings as well as at the conference web site.

Upon reviewing, selected papers will be published as part of monograph entitled Experimental and Numerical Investigations in Materials Science and Engineering (Springer), as well as in journals: "[Structural Integrity and life](#)" (ISSN 1451-3749), "[Science of Sintering](#)" (ISSN 1820-7413) and "[FME](#)" (ISSN 1451-2092).

Thematic collection of international significance for 2019 entitled "Computational and Experimental Approaches in Materials Science and Engineering" published by the renowned Swiss publishing house Springer was one of the main publications cited in the works in order to achieve the goals of sustainable development of the United Nations.
